Yo' next range should be a
GENERAL ELECTRIC!

A GENERAL ELECTRIC RANGE simplifies the art of good cooking. Without specialized cooking skill you can serve delicious meals that will turn delicate appetites into roaring, robust hunger, that will tempt the most finicky taste.

The automatically controlled, precision temperatures of a G-E Range eliminate failures. Health giving vitamins and all the delicious natural flavors of foods are served at the table—not cooked away in the kitchen.

General Electric, the world's largest manufacturer of electrical products—the leader in electrical research and development for more than half a century, has *modernized electric cookery*. The famous G-E Hi-Speed Calrod heating unit gives swifter and far more economical cooking heat—is more durable and lasts longer.

In easy utility, in matchless performance, in outstanding beauty, General Electric Automatic Electric Ranges are years ahead—yet you pay no premium. G-E prices are low—no more than you might pay for an ordinary electric range.

General Electric Ranges are beautifully styled in the modern mode of kitchen design. They can be placed flush against the walls and adjoining cabinets. General Electric Company, Specialty Appliance Dept., Sec. M7 Nela Park, Cleveland, Ohio.
